torrent download Show HN: A feature for discovering rare links from HN -
davewiner There are a lot of features on HN (search, top,...) which are handy and
maybe even useful. However, I think there's a large, significant group of users who
also like to get lost in links from the past. I built a feature for discovering links you
may have missed on HN before. Just go to the page for a link you're interested in,
click the little time arrow next to the title of the post, and click on "Show HN". If
it's an old HN post you're interested in, you'll find a link in the resulting page (see
the image below). I know it's simple but I'm sure there are a lot of people here who
haven't seen this feature before and might find it useful. ===== davewiner
