
Crysis 1 Windows 7 64 Bit Crack

I've been struggling with this for a few days now. I have windows 7 ultimate and I have a radeon 9800 gx2, the thing is that when I run Crysis as a Windows 7 64 bit Home. my system crashes and the screen gets blue and I get a black screen, if I keep it open, the system remains. Crysis Free Download PC game in a pre-installed direct link.. just hope you are on windows 7 and not 10 or you might lag a bit on medium graphics. I've been struggling with this for a few days now.
