We strive to provide the most complete social experience for Ultima Online players.Prospects for a Cure How the latest cancer statistics could help cancer scientists For the 19th straight year, cancer-related deaths in the United States have declined. It's a wonderful improvement over the staggering rates of over half a million new cancer cases being diagnosed each year in the United States. And while these two numbers may appear to be unrelated, they are linked. The improvement in cancer survival—which measures the chance that a cancer patient will survive for five years after diagnosis—is largely the result of three changes that have both occurred and continue to occur over the past decade. First, the
